Subject:	[Colorado.gov Pacific-notify] Pacific Platform V1.15.0 - Deployment Successful
Attachments:	ATT00001.c

This is an announcement to all current users of the Pacific CMS Platform.

The latest release of The Pacific Platform has been deployed and tested successfully. All of the functionality outlined in the patch notes below has been implemented in the Production Environment.

Pacific Release 1.15.0
Patch Notes

- PAC-301 - Code Integration Updates for 1.15.0
        - Configuration changes currently running in the Production Environment have been committed to the codebase to preserve optimizations and functionality

- PAC-309 - Iteration 1.15.x - Module Updates
        - Drupal Modules have been updated to maintain latest version and security updates

Platform Content Update – Platform-Wide Footer Area has been updated to reflect:
-    Current Copyright Information
-    Transparency Online Project
-    Colorado.gov Policies
